

# Capability Statement

## Core Competencies

As a Service-Disabled Veteran-Owned Small Business (SDVOSB), KURV O2 Advanced Chiropractic PLLC is uniquely positioned and fully equipped to provide specialized healthcare diagnosis and treatment, exceeding the requirements for Veterans within the VA VISN-17 Heart of Texas Health Care Network.

Utilizing a multifaceted approach, our licensed professionals diagnose postural conditions and spinal ligament injuries due to Alteration of Motion Segment Integrity (AOMSI). We successfully treat degenerative conditions non-surgically via programs focused on structural rehabilitation, postural analysis, and physiotherapy

- Spinal Ligament Injury Center®
- Structural rehabilitation for postural and spinal correction
- Specialized physiotherapy programs for posture and spine
- 3D Spinal Decompression therapy
- Extracorporeal regenerative Shockwave therapy
- Oxygen Therapies

## Differentiators

**Specialized Focus on AOMSI:** Our clinical practice centers on Alteration of Motion Segment Integrity (AOMSI) related to Whiplash Associated Disorder (WAD), referencing AMA Impairment Guides.

**Addressing Instability:** We address spinal instability caused by AOMSI, which the AMA considers more severe than some surgically repaired conditions and a key factor in degeneration and disability.

**Proven Non-Surgical Treatments:** Following diagnosis, we employ proven, non-surgical treatments that measurably improve spinal structure and posture.

**Alignment with Best Practices:** Our emphasis on structural rehabilitation aligns with ICA Best Practices for advanced chiropractic care, going beyond simple pain management.

## Past Performance

## Company Data

Founder Dr. Kyle Knapp DC, MBA, CFMP, SLIS brings over 18 years of clinical expertise in structure-based chiropractic, specializing in reshaping spinal curves and posture. A graduate of the National Veteran Institute of Procurement (VIP) and a US Army Airborne Veteran with a service-connected spine injury, Dr. Knapp is dedicated to providing successful healthcare solutions to veterans.
